Question 2

Ana Bhattacharjee September 21, 2019

$$P(B|A) = \frac{P(A \cap B)}{P(A)}$$

$$P(B|A) = \frac{0.62 * 0.023}{0.62}$$

$$P(B|A) = 2.3\%$$
(1)
(2)

$$P(B|A) = \frac{0.62 * 0.023}{0.62} \tag{2}$$

$$P(B|A) = 2.3\% \tag{3}$$
